**ROLLERLite®**

# **PAINT APPLICATORS TRUSTED BY PROFESSIONALS**

RollerLite® is the only brand that produces **American Quality** applicators while remaining competitive in the market. Unlike any other brands today, all RollerLite® roller covers are made in one facility which guarantees that we are able to maintain the highest quality standards. Our experience with major industry retailers has allowed us to achieve the pinnacle in craftsmanship, shown in every single one of our products.

## **Our Products**

RollerLite® offers a complete line of roller covers, including a variety of fabrics that optimally perform with today's paints: Shed-resistant Dralon®, Microfiber, Synthetic Mohair, Polyester/Wool Blend and 100% Polyester fabrics provide a complete line to handle any painter's needs. A durable Thermobond core is great for latex and resistant to solvents. Available from 2" to 18" lengths.

Introducing  
**ROLLER*Lite*Max**

**40% lighter**  
than wire cage frame assembly!

**All the technology of a  
Mini Roller now in a  
9" Roller Cover!**

- 1** Patented Bearing System prevents roller covers from unwanted lateral movement during use.
- 2** Caps that prevent paint inside the assembly.
- 3** 1 Wire Frame to make it light and easy to use.

**Test the difference!**

**Traditional Cage Wire Frame**

Made with sturdy multiple wires and plastic end caps forming a cage to keep roller cover round while painting.

**ROLLER*Lite*Max Frame**

Roller*Lite*Max assembly combines mini roller technology (1 wire frame and a patented bearing system) making it lighter than the traditional cage frame assembly.

**Microfiber™**

**ROLLER*Lite*Max - Assembly | 100% Microfiber - Lint Free**
